We really need the county name column. Also for the Contact, please select the "Name" column in TINLGENT instead of first and lastname

Thanks Jonathan!

Mark

Subject: M6H1 – Harvey Response: SDWIS State Contact Spreadsheet needed "yesterday"
Importance: High

We desperately need a spreadsheet of PWS contacts. Very simple do not care if there are duplications.

PWS-ID (including the "TX" prefix)
PWS Name

Contact Type
Contact
Phone Number

Need a sheet for all systems in Houston Region and another for all in Beaumont Region

What we are after is illustrated in DWW. Pull up any water system in the Search List. Click Summary Sheet. That is the list we are using to call systems for site visit appointments. We can then provide teams with a contact list for their systems so they can call in transit and to rearrange as needed.

I would really like to get the in the next couple hours. So we can finish preparations for tomorrow.

Thanks,

Mark McCasland
